If tie persists due to competitors having the same lowest point among the 3 points, the highest point of these 3 points is compared. In the case of a further tie, depending on the age and category, competitors will be asked to perform another

kata (repeat or same kata). Competitors will be asked to change their belts to red and blue/ white and asked to perform – red belt competes first. Decision will be made by Hantei using flags. (In the case where 3 points instead of 5 points are given for the kata performance, no points will be cancelled.)

7. Disqualification (the lowest point in that round will be given) will occur if the competitor:

a) Announces a kata and performs another kata; b) adds or forgets a technique in the kata; c) stops or pauses for more than 5 seconds during the kata performance; d) loses balance and falls during kata performance; e) does not perform the kata of the style asked in the respective category, or (f) objects fall from the karate gi during kata performance, or any other accessories not allowed during performance are seen during performance on tatami. Coaches ensure that competitors are appropriately dressed.

NOTE: For the individual categories, competitors are allowed to enroll as is the usual practice - in their appropriate age and belt category. They may compete also in the next higher age and belt category; however, they MUST FOLLOW THE RULES of that category as shown in Table 1 (for example, they must change kata if they are participating in the category of 6th kyu accordingly) even though the competitor is of a lower grade.

Higher belts cannot compete in lower belt categories; however, veterans (masters) can compete in lower categories – Juniors or Seniors.

Teams which do not have the 3 members at the beginning of the 1st round cannot participate and will be declared kiken (renunciation). The injured team member may be substituted from the 2nd round onwards.

Before each bout, the coaches must hand in the fighting order of their teams to the officials on their tatami. The fighting order can be changed for each round, however, once notified, it cannot be changed.
